

Fossils, megafauna & climate change: Unearthing stories of the past and what they mean for the future

Discover the amazing work happening at the World Heritage Naracoorte Caves that looks at how biodiversity (plants, animals and the way they connect) responded to climate change over the past 50,000 years, and lessons we can learn for now and the future.

Journey through our past with **Dr Liz Reed, Palaeontologist (Flinders University)** at two family friendly (all ages) events:

Presentation

Wednesday 10 April
7:00pm (SA Time)
